CHARACTERISTICS

- *Imparts high brightness and a neutral tone.
- *Gives excellent whitening effect.
- *Suitable for every kind of white leathers to be produced.
- *Gives a good silky touch for white crust leathers.
- *Gives the ability of a good dye to wet white leathers.
- *Doesn't cause any hardness, hence elastic & softness to the product produced.

APPLICATION

Where the traditional white syntans can't reach excellent brilliant whiteness, WHITE PAPER fixes the suede and grain sides giving exceptional whiteness and feeling effect.

Our suggestion for appicilatton is to use with white syntans together and fatliouring bath.

When used in pastel colours it eliminate greenness of Chrome leather and gives shinny pastel colours.
